### CHECK POINT CERTIFIED SECURITY ADMINISTRATOR (CCSA) R80

Today, managing security is a complex endeavor. The key to managing this complexity is through security consolidation – bringing all security protections and functions under one umbrella. With R80 management, security consolidation is fully realized. This 3-day course covers everything you need to start-up, configure and manage the daily operations of your Check Point infrastructure with R80.

**Delta College is a Check Point Secure Academy Authorized Training Partner, specializing in training.**

**Date:** March 6 – March 8, 2017

**Time:** Monday, Tuesday, Wednesday;  
8am - 5pm

**Location:** K-105; Delta College Main Campus

**Cost:** \$2895

(Includes light breakfast and lunch each day, Pearson VUE # 156-215.80 exam voucher\* and the R80 Security Administration Student & Lab manuals)

**Course Number:** CBC-1512

#### Who Should Attend

Technical professionals, who support, install, deploy or administer Check Point Software Blades

#### What You'll Learn

- Install R80 management and a security gateway in a distributed environment
- Configure objects, rules, and settings to define a security policy
- Work with multiple concurrent administrators and define permission profiles
- Configure a Virtual Private Network and work with Check Point clustering
- Perform periodic administrator tasks as specified in administrator job descriptions

#### Prerequisites

- Basic knowledge of networking
- General knowledge of TCP/IP
- Working knowledge of Windows and/or UNIX, network technology and the Internet
- 6 months to 1 year of experience with Check Point products recommended

***\*You will be responsible to schedule your own exam at a VUE test center. The Delta College Testing Center is an authorized Pearson VUE test center.***

#### Benefits

- Be prepared to defend against network threats
- Evaluate existing security policies & optimize the rule base
- Manage user access to corporate LANs
- Monitor suspicious network activities & analyze attacks
- Troubleshoot network connections
- Implement Check Point backup techniques
- CCSA's rank higher than other security vendor professionals
- Validation of your skills to implement the latest network security advancements
- Community of Certified Professionals, newsletter & special web access

## ISO-9001 Overview, Implementation & Auditing

In this 2 day training, you'll review the concepts of Total Quality Management (TQM) and Quality Management Systems, understand the requirements outlined in the most recent (2015) revision of the ISO 9001 Standard and learn how to follow this road map for implementing an effective Quality System that complies with the new requirements. This training also prepares internal auditors for their role in this implementation.

**Date:** January 5- 6, 2017

**Time:** Thursday & Friday;  
8:00am – 4:30pm (30 minute lunch)

**Location:** Delta College Main Campus

**Cost:** \$595

(Workbook with PowerPoint and case exercises included. Participants may wish to purchase a copy of the Standard prior to class).

**Course Number:** CVI-1085
